

# SIE 695A

## Systems and Industrial Engineering/Engineering Management Graduate Seminar Spring 2016

**Seminar Hour:** Thursday 2:00-3:00 PM (we will ask some of the speakers to stay and talk to students until 3:30)

**Classroom:** ENGR 301 (unless otherwise noted)

**D2L:** D2L will be used for submission of Critiques as well as information about upcoming speakers.

**Instructor:** Larry Head, ENGR 251, (520) 621-2264, [larry@sie.arizona.edu](mailto:larry@sie.arizona.edu)

**Office Hours:** M 3 PM – 5 PM or by appointment (email request) [see my calendar at <http://bit.ly/larryheadcal>]

**Purpose:** The Department Seminar is a weekly meeting where notable researchers present their work to SIE faculty and students. It is intended to engage the research community in interesting and relevant topics.

**Prerequisite(s):** SIE Graduate Student

**Textbook(s) and/or other materials:** N/A

**Objectives:**

1. Expose PhD students to a wide variety of SIE related research

**Work Required:**

1. Attendance: Attendance for this course in *highly* emphasized
2. Critiques: For each seminar a critique report is required. Each critique should provide an overview about the speaker; identify any specific information that you found relevant to your research, and other observations of interest. Each critique will be approximately ½ to 1 page in length and submitted to the course D2L site before the start of the seminar the following week. [**This rule is strictly enforced in 2015**]. In addition, if you are not in attendance in seminar, it is not possible for you to prepare a critique. Please do not submit a critique if you are not present in seminar.

**Grading: (PASS/FAIL)**

Attendance	50%
Critiques	50%
80% Completion Required for PASS.
